## OBJECTIVE

I'm seeking to secure a position in Tech2Give's immersive industrial attachment program as a Software Engineering student, where I can leverage my technical skills and passion for coding gain practical experience and contribute to innovative software development projects. I am eager to immerse myself in a dynamic learning environment and accelerate my growth as a software engineer.

---

## EDUCATION

Bachelor of Science in Software Engineering - Kirinyaga University September 2021 -present

- I am currently a 3rd year student pursuing a bachelor's degree in software engineering.
- 

## EXPERIENCE

Industrial Attachment Attaché - Fric Technologies, Nanyuki May 2023 - August 2023

- Applied problem-solving skills to troubleshoot network issues and ensure uninterrupted service delivery to customers.
  - Communicated effectively with cross-functional teams to address technical challenges and implement solutions, fostering collaboration and teamwork.
  - Developed an understanding of user needs and expectations, prioritizing customer satisfaction and user experience in service delivery.
- 

## SKILLS

- Programming Languages and tools: HTML, CSS, JavaScript, ReactJS, MySQL
  - Version Control: Git
  - Other Skills: Network Fundamentals, Fiber Optic Technologies, Wireless Networking, Network Troubleshooting (from Fric Technologies attachment)
  - Soft Skills: Teamwork, Communication, Problem-Solving, Time Management
- 

## INTERESTS

- **Attending online Tech Meetups and Conferences:** Actively seek opportunities to attend online industry events and conferences to stay updated on the latest technological advancements and network with professionals.
- Member of Computer Society of KyU.
